CSR program - 2023 data
Naturally committed to a sustainable world
A value-creating CSR program

Sustainable development at SILAB has been deeply rooted since the creation of the company. It was formalized in 2021 in a program called Actively Caring.

Actively Caring is based on 5 strategic pillars that illustrate its cross-functional commitment. With multi-year objectives and action plans, this program meets a willingness for continuous progress and is reflected in concrete initiatives.

### Strategy
Fostering a sustainable growth dynamics

- **€62 M** of sales
- 60% of sales from exports

SILAB, a sustainable company

SILAB is an independent and innovation-based company, pioneer in the field of research and industrialization of natural active ingredients since its creation in 1984. Its objective is to sublimate Nature through scientific and technological innovation for the beauty and health of the skin. All of its active ingredients are derived from its own research and manufactured in its single site.

In accordance with its founding values - Independence, Excellence, Quality - SILAB works in a societal approach devoted to both humankind and respect of the planet.
